

LOGNOTE -- INTERNET Control Center Staff

8 January 1987

[] ACCEPTANCE OF INTERNET CIRCUITRY -- C/FSB/FED
[] advised today that all tests have been completed successfully and FED has informed OTI and COMSAT that the Caversham-Madley-Independent Hill INTERNET circuitry has been accepted for operational use starting 12 January. COMSAT has, in turn, informed BTI. With this, FED has turned over operation of the system to the INTERNET Control Center Staff.
